EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wendy Davis on 09/27/2005.

In the claims:

Claims 1-17 are cancelled.

Claim 18 (renumbered as claim 1) is amended as follows:

A method for producing a non-human mammalian model for persistent neurogenic pain, comprising the step of:

non-traumatically altering a tibial nerve or a branch of a tibial nerve of a non-human mammal by non-surgically placing a gel substance into the fascial tunnel through which the tibial nerve or the branch of the tibial nerve passes, wherein the placement of the gel substance leads to the development of allodynia, thereby producing a non-human mammalian model for persistent neurogenic pain.
